To whom it may concern

OWS Railroad Construction and Maintenance LTD recently Hired Heidi Brooks of ICI Construction to perform our external COR audit.

Heidi was very professional and worked with us through the whole COR process and was a great asset as she provided very knowledgeable information and tips to help us succeed.

Heidi interacted with our employees during the interview process and made everyone feel more at ease and comfortable, her interactions and observations while in the field show she has a great deal of knowledge in the construction and industrial sectors.

As Heidi has also just completed her own company COR certification she know the steps and what to look for as an auditor which was an asset. Heidi also kept in touch until we completed successfully and ensure our certificate arrived in a timely manner
